

ENZYM TRENOLIN ROUGE 1 KG ERBSLOH

Product description Trenolin® Rouge DF is a special, liquid red wine enzyme for treating red wine mashes. Trenolin® Rouge DF is depsidase (cinnamyl esterase) free. Other benefits

- For producing fruity, smooth and deep-coloured red wines
- Promotes balanced extraction of anthocyanins and tannins
- Also suitable for red wine maturation in barriques
- Trenolin® Rouge DF is an enzyme preparation purified using a special process. This eliminates disruptive collateral depsidase and oxidase activities

Recommended for

- All types of red wine
