

HOMOGENIZATOR WYSOKOCIŚNIENIOWY DO SOKÓW

- Capacity: 1000 L/h 7,5 kW
- Maximum temperature: 90 °C
- Two homogenizing phase: 1.: 200 bar, 2.: 50 bar
- Feeding pressure requested: 2 bar
- Voltage: 400 V
- Consumption of water: 70-90 L/h
- Consumption of air: 5 bar, 0,3 NI/minute
- Gross size: 1300x1600x1500 mm
- Gross weight: 1000 kg

Compression head and valve:

- milled from one block
- high pressure resistant pistons
- vibration-free

Structure:

- vibration free pump
- power transmission through „V” belts, 1:2
- automatic oil lubrication with oil level indicator

Accessories:

- wearing part set
- tools
- oil
