ZBIORNIK CYLINDRYCZNY TRANSPORTOWY RCN

SCHAFER Container Systems

Round Container RCN

The all-rounder among our stainless steel IBCs

The round IBC tank is designed for liquids with a density of up to 2.0 kg/l and is made completely of stainless steel – a food-safe version can be supplied, if required. This makes the stackable industrial container suitable for almost all applications. The IBC is available in volumes of 500 - 1000 litres and the addition of stirring devices, insulation and much more enable it to be adapted to your individual needs.

Application examples: chemicals, petro-chemicals, waste disposal, recycling, food industry, paints and lacquers, plant construction.

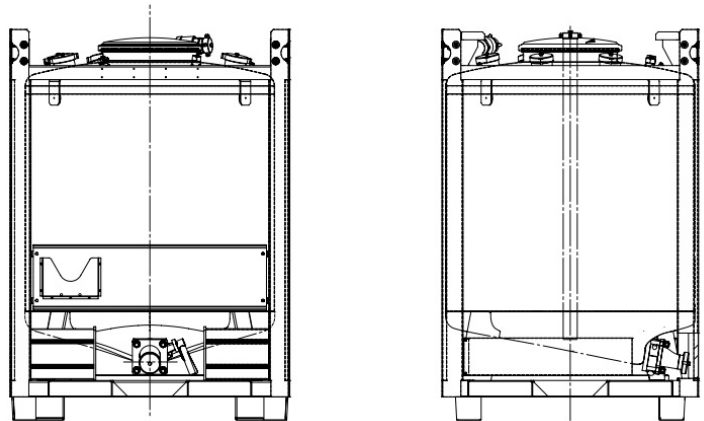

IBC features

- 100 % stainless steel tank
- Individual transport frame
- Wall thicknesses 2.0 / 2.5 mm
- Manhole DN 400 / DN 457
- Screw-down cover or tension ring
- Customized seals
- Overpressure safety valve
- Individual discharge valves
- Stackable
